6.1 **LAGUNA CREEK INTER-REGIONAL TRAIL MASTER PLAN (WAM011)**

The Laguna Creek Inter-Regional Trail Master Plan (LCIRTMP) complements work done on the City's Bicycle, Pedestrian, and Trails Master Plan (BPTMP) Update by providing greater detail, a wholistic approach, and a broader geographic scope related specifically to the Laguna Creek Inter-Regional Trail (LCIRT). The LCIRT is intended to be a multi-use connection between the City of Sacramento and the City of Elk Grove to encourage more active transportation connections and will provide a conceptual multi-modal planning foundation for the City and adjacent communities. The LCIRTMP identifies gaps, needed trail improvements, access to existing and future transit, a connection to SacRT light rail, connections into the City of Sacramento's trail network and access for disadvantaged communities to create a continuous, equitable and safe corridor.

Recommendation: Receive staff's presentation and provide feedback to Strategic Planning and Innovation Program Manager Carrie Whitlock and Capital Program Division Manager Christina Castro.

The Trails Committee intends to discuss improvements to the Trails Master Plan, including but not limited to, questions surrounding clarity in some areas and how to refine the map for future revisions.

INTRODUCTION / BACKGROUND:

The Laguna Creek Inter-Regional Trail Master Plan (LCIRTMP) complements work done on the City's Bicycle, Pedestrian, and Trails Master Plan (BPTMP) Update by providing greater detail, a wholistic approach, and a broader geographic scope related specifically to the Laguna Creek Inter-Regional Trail (LCIRT). The LCIRT is intended to be a multi-use connection between the City of Sacramento and the City of Elk Grove to encourage more active transportation connections. The completion of the Laguna Creek Trail system is a high priority for both the City's Trails Committee and the City Council. The LCIRTMP will provide a conceptual multi-modal planning foundation for the City and adjacent communities. The LCIRTMP identifies gaps, needed trail improvements, access to existing and future transit, a connection to SacRT light rail, connections into the City of Sacramento's trail network and access for disadvantaged communities to create a continuous, equitable and safe corridor.

The development of the LCIRTMP is funded through a Caltrans Sustainable Communities Grant and has been in process for the past fifteen months. The process has included extensive outreach and community engagement to both Elk Grove and South Sacramento residents. A Community Advisory Group was convened and critical to ensuring broad stakeholder engagement. The goal following Plan adoption is to support implementation through further development of specific trail segments and grant applications.

The public draft of the LCIRTMP will be posted on the City website on Friday, October 14th and available for public comment through Friday, November 4th.

Staff recommendation:

City Staff would like to provide information for the Trails Committee on the public review draft of the Laguna Creek Inter-Regional Trail Master Plan.
