

## WHAT ARE THE PROGRAM REQUIREMENTS?

- **Complete a Recycling Plan.** The Recycling Plan includes summary information about your business or multifamily property and indicates how you will comply with the program.
- **Separate recyclables from trash.** Recyclables include mixed paper, newspaper, magazines, junk mail, green waste cardboard, plastic containers (#1 - #7), glass containers, and aluminum and tin cans.
- **Provide for the collection and delivery of recyclables to a recycling facility by either:**
  - a. Entering into a Service Agreement with a Registered Commercial Hauler or an Authorized Recycler for the collection of recyclables; OR
  - b. Self-hauling recyclables to an appropriate facility. For this option, you must complete and retain an on-site Self-Haul Recycling Form (form available on our website)
- Provide containers to collect recyclable materials at your business or multifamily property.
- Post and maintain signs in areas where recyclables are collected.
- Educate employees and/or tenants about the program.

### For Multifamily Properties Only:

- If green waste is not collected onsite (i.e. hauled offsite by a contracted landscaper) a service agreement must be made with the landscaper that requires all green waste being hauled offsite to be recycled.

## *Business & Multifamily* Statewide Recycling Program

CITY OF  
**ELK GROVE**  
RECYCLING & WASTE

[elkgrovecity.org/recycle](http://elkgrovecity.org/recycle)

## WHAT IS THE BUSINESS AND MULTIFAMILY RECYCLING PROGRAM?

All businesses, non-residential properties, multifamily properties, and single-family residential properties managed by an association or other organization, that subscribe to 4 cubic yards per week or more of trash service, are required to have a recycling program.

## WHY DID THE CITY ADOPT THIS PROGRAM?

The City is required by State law (AB 939) to divert 50% of the waste generated in Elk Grove from landfills through reduction, recycling and composting programs. The Business and Multifamily Recycling Program will contribute to the City's efforts to comply with this State law, and will contribute to the City's commitment to environmental protection, greenhouse gas reduction, and energy independence.

## WHO DOES THIS PROGRAM APPLY TO?

All businesses, non-residential properties, multifamily properties (with 5 or more units), and single-family residential properties managed by an association or other organization, that subscribe to 4 cubic yards per week or more of garbage collection service, are required to implement an on-site recycling program.
