SUBJECT: *Filing of Notice of Determination in compliance with Section 21152 or 21152 of the Public Resources Code*

STATE CLEARINGHOUSE NUMBER: SCH# 2020070214

PROJECT TITLE: Sheldon Farms North Commercial Map (PLNG24-005)

PROJECT APPLICANT: Sheldon Farms Commercial, LLC
John Hynes (Representative)
1821 Q Street
Sacramento, CA 95811
(916) 514-5225

PROJECT LOCATION: Elk Grove California, Sacramento County

ASSESSOR'S PARCEL NUMBER(S) 116-0012-069

PROJECT DESCRIPTION: The Sheldon Farms North Commercial Map Project (the "Project") consists of a Tentative Parcel Map (TPM) to subdivide one ±5.03-acre parcel into two lots. Plans for grading, utilities, storm water quality, and building architecture have previously been approved. The TPM would split the property into two parcels to include one building and associated parking, landscaping, and site improvements per parcel.

This is to advise that on June 6, 2024, the City of Elk Grove Planning Commission approved the above described Project and has made the following determinations regarding the above described project.

- The Sheldon Farms North Initial Study/Mitigated Negative Declaration (SCH# 2020070214) was prepared and certified pursuant to the provisions of CEQA.
- Pursuant to Section 15168(c)(2) the Planning Department finds that the Project, as proposed, does not present any new environmental effects or mitigation measures required beyond the scope of those analyzed in the Sheldon Farms North Initial Study/Mitigated Negative Declaration (SCH No. 2020070214).
- A Mitigation Monitoring and Reporting Programs (MMRP) was adopted as part of the Sheldon Farms North Project EG-18-019 (SCH# 2020070214), which would be applicable to this project.
- Findings were made pursuant to the provisions of the California Environmental Quality Act (CEQA).

CEQA requires analysis of agency approvals of discretionary "projects." A "project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment" (State CEQA Guidelines Section 15378). The proposed Project is a project under CEQA.

No further environmental review is required under CEQA pursuant to State CEQA Guidelines 15162 (Subsequent EIRs and Negative Declarations). State CEQA Guidelines Section 15162 provides that when an EIR has been certified or a negative declaration has been adopted for a project, no subsequent EIR or Negative Declaration shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in light of the whole record, that one or more of the following exists:

1. Substantial changes are proposed in the project which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;
2. Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
3. New information of substantial importance, which was not known and could not have been known with exercise of reasonable diligence at the time of the previous EIR was certified as complete shows any of the following:
 - a. The project will have one or more significant effects not discussed in the previous EIR;
 - b. Significant effects previously examined will be substantially more severe than shown in the previous EIR.
 - c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
 - d. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measures or alternative.

In 2020, the City Council adopted an Initial Study/Mitigated Negative Declaration (IS/MND) for the Sheldon Farms North project (State Clearinghouse No. 2020070214). The Sheldon Farms

IS/MND analyzed full buildout of the Sheldon Farms North site, which included analysis of commercial uses on the Project site. The Project is subject to the Sheldon Farms North Mitigation, Monitoring and Reporting Program (MMRP).

Staff has reviewed the Project and analyzed it based upon the above provisions in Section 15162 of the State CEQA Guidelines. The Project is being undertaken pursuant to and in conformity with the approved Sheldon Farms North project. The Project consists of a Tentative Parcel Map to further divide the commercial parcel created with the Sheldon Farms North Large Lot Final Map into two separate parcels which does not increase the density or intensity of development therefore conforming to the Sheldon Farms North Project. No new development is proposed, and no special circumstances exist and no changes in the Project have occurred that would necessitate the preparation of subsequent environmental review. No additional environmental impacts have been identified for the Project other than those previously disclosed and analyzed in the IS/MND for the Sheldon Farms North project. Furthermore, since no changes to the IS/MND are necessary to support the Project, the City is not required to prepare an Addendum to the IS/MND as set forth in State CEQA Guidelines Section 15164. Therefore, the prior IS/MND is sufficient to support the proposed action and no further environmental review is required.

No potential new impacts related to the Project have been identified that would necessitate further environmental review beyond the impacts and issues already disclosed and analyzed in the Sheldon Farms North IS/MND. No other special circumstances exist that would create a reasonable possibility that the Project will have a significant adverse effect on the environment. Therefore, the prior IS/MND is sufficient to support the proposed action and pursuant to State CEQA Guidelines Section 15162, no further environmental review is required.

This is to certify that the IS/MND is available to the General Public at: City of Elk Grove, 8401 Laguna Palms Way, Elk Grove, CA 95758
