PROJECT TITLE: **APEC Survey Road Warehouse (PLNG22-024)**

PROJECT LOCATION - SPECIFIC: **9200 Survey Road**

ASSESSOR'S PARCEL NUMBER(S): **134-0520-017**

PROJECT LOCATION – CITY: **Elk Grove**

PROJECT LOCATION – COUNTY: **Sacramento**

PROJECT DESCRIPTION: The Apec Survey Road Warehouse Project (the "Project") consists of a Minor Design Review for the construction of one new single-story storage warehouse building totaling approximately 6,000 square feet along with associated parking, landscaping, and lighting improvements on a vacant +/- 0.81-acre parcel located southeast of the intersection of Survey Road and Disposal Lane, 9200 Survey Road.

LEAD AGENCY: **City of Elk Grove**  
Development Services-Planning  
8401 Laguna Palms Way  
Elk Grove, CA 95758

LEAD AGENCY CONTACT: Cindy Gnos, (916) 372-6100

APPLICANT: Alpha Pacific Engineering & Contracting, Inc.  
Jing Liang (Representative)  
8185 Belvedere Avenue, Suite F  
Sacramento, CA 95826  
(916)389-0342

EXEMPTION STATUS:  Infill Development [Section 15332]

**REASONS WHY THIS PROJECT IS EXEMPT OR DOES NOT REQUIRE FURTHER ENVIRONMENTAL DOCUMENTATION:**

The California Environmental Quality Act (CEQA) requires analysis of agency approvals of discretionary "Projects." A "Project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment" (CEQA Guidelines Section 15378). The proposed Project is a project under CEQA.

The Project is categorically exempt from CEQA review pursuant to State CEQA Guidelines Section 15332 (In-fill Development). State CEQA Guidelines Section 15332 consists of projects characterized as in-fill development that meet the following conditions:

- a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations.
- b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses.
- c) The project site has no value, as habitat for endangered, rare, or threatened species.
- d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
- e) The site can be adequately served by all required utilities and public services.

The Project consists of a Minor Design Review for the construction of a new single-story storage warehouse building totaling approximately 6,000 square feet along with associated parking, landscaping, and lighting improvements. The Project was reviewed and found to be consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designations and regulations. The Project site is within an urban area that is less than five acres in size and surrounded by other industrial and office uses. The Project site does not contain any habitat for endangered, rare, or threatened species as the site is graded and does not have vegetation. Approval of the Project would not result in any significant effects relating to traffic, noise, air quality, or water quality as it would be subject to the Elk Grove Municipal Code (EGMC) Chapter 16.44 related to Land Grading and Erosion Control and EGMC 6.32 related to Noise Control. The Project would also be subject to the City's water efficient landscape ordinance and would be below the construction and operational air quality screening levels set forth in the Sacramento Metropolitan Air Quality Management District CEQA Guide. Finally, the site will be adequately served by all required utilities and public services. The Project consists of an industrial project that is under 50,000 square feet. Industrial projects less than 50,000 square feet are exempt from VMT analysis. Approval of the Project would not result in any significant effects relating to traffic, noise, air quality, or noise quality. No special circumstances exist that would indicate there is a reasonable possibility that the Project would have significant adverse effect on the environment.
